CHEMTEX

Service with a smile 24/7

Georgia facility

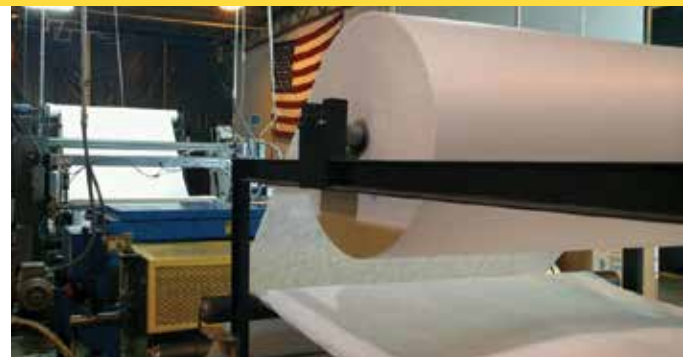

Corporate headquarters
in Rhode Island

Canada facility

With distributors located in over 40 states in the U.S. and over 25 different countries throughout the world, we've got you covered for spills of all sizes.

WE'RE MANUFACTURING GREAT PRODUCTS FOR THE SPILL CONTROL INDUSTRY!

Chemtex's new facility in Georgia uses an Exxon-patented extrusion die for the manufacturing of all of its meltblown polypropylene absorbent products.

To order, call 1-800-783-5272

Safety First! Companies are responsible for maintaining a clean and safe workplace for their employees. They are also responsible for protecting our environment, especially when working with petroleum liquids and hazardous chemicals. This means having a proper spill control plan in place at all times. Chemtex helps companies comply with all of the above by manufacturing a variety of premium meltblown polypropylene sorbent products, including sorbent pads, rolls, booms, socks, pillows and spill kits. These items and more are used in day-to-day MRO applications for catching drips and leaks and for major catastrophic incidents by oil spill response organizations all over the world.

In our 90,000 ft² factory located in Milledgeville, Georgia, we maintain an automated manufacturing process which includes polypropylene extrusion, thermal bonding, bidirectional perforating, sheeting, stacking and rewinding. We also have a scrap converting operation, where we reprocess over 95% of our post-industrial waste into accessory absorbent products, such as booms, socks, pillows and spill kits. By reprocessing our own waste, we are eliminating what goes to the landfills and manufacturing useful products at the same time. **We offer Superior Service and High-Quality Products at Fair Prices.** This is what we do best!

With three stocking locations on the East Coast of North America—two in the U.S. and one in Canada—Chemtex has what you want when you need it. We know oil spills don't punch a time clock, so for that reason we carry a huge variety of inventory at all times. When it comes to cleaning oil or chemical spills, we want you to think Chemtex!

SORBENTS: CLAY VS POLY

Are you still using clay to clean your leaks, drips and spills?

You may think you're saving money because the cost of a bag of clay is so cheap, but in reality you are spending more—a lot more! In addition to the financial savings that we list below, these are a few other reasons not to use clay:

- > Clay is very messy; cleanup is difficult and labor-intensive.
- > Clay is an abrasive, which causes damage to machinery and moving parts.
- > Silica is considered a serious health hazard by OSHA.
- > Clay is heavy to work with compared to polypropylene pads.
- > Clay is not a good absorbent.

To learn more details about clay vs. polypropylene, please call our office and ask to speak with a customer service representative.

CLAY MINERAL

POLYPROPYLENE

PRODUCT QUANTITY AND COST

10 Bags

\$9.50/bag x 10 bags = \$95

1 Bale

\$58/bale x 1 bale = \$58

Quality Rating of Pads & Rolls

Single layer of standard fiber meltblown polypropylene

★★

Standard Meltblown Pads & Rolls

- > Fast-absorbing with an economical price
- > Contractor Grade
- > No perforations
- > For short-term use

Single layer of dimpled meltblown polypropylene

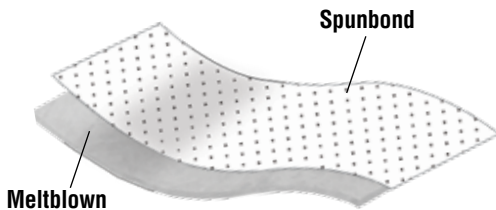

★★★

Dimpled Meltblown Pads & Rolls

- > Stronger than Contractor Grade pads & rolls
- > The dimples reduce linting in pads & rolls
- > Perforated to waste less

One layer of spunbond fabric is bonded to a single layer of meltblown polypropylene.

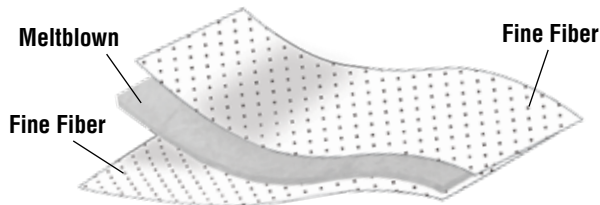

★★★★

Bonded-SM Pads & Rolls

- > Stronger tensile strength than the dimpled pads & rolls
- > One side is lint-free that can be used for wiping
- > Perforated every 7.5" vertically and 19" horizontally to waste less

Two layers of low-linting fine fiber polypropylene are bonded around a meltblown core.

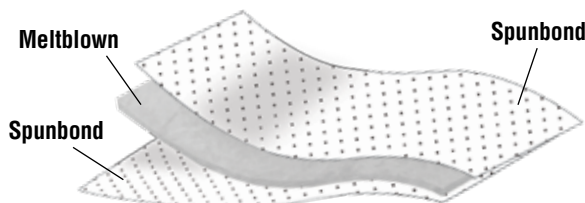

★★★★★

Fine Fiber Meltblown Pads & Rolls

- > Super-strong tensile strength
- > Very low lint
- > Grips floors
- > Perforated every 7.5" vertically and 19" horizontally to waste less

A meltblown sorbent core is bonded between two layers of lint-free spunbond fabric.

★★★★★

SMS Bonded Pads & Rolls

- > Super-strong tensile strength
- > No lint
- > Perforated every 7.5" vertically and 19" horizontally to waste less

UNIVERSAL ABSORBENTS

Ideal for use in maintenance and repair operations, MRO.

These pads and rolls will absorb, oil, water and water-based chemicals. Universal sorbents are left on the ground under and around machinery to catch drips and spills from leaking machinery or equipment. Pads and rolls come in four qualities—Fine Fiber-FMF, Bonded-SM, Dimpled and SMS Bonded Meltblown.

Fluids Absorbed For Oils, Coolants, Solvents and Water

- Hydraulic Oil
- Ethanol
- Gasoline
- Kerosene
- Water
- Mineral Spirits
- Turpentine

Full list of fluids absorbed on page 81

Quality Rating of Pads & Rolls

★★★

DIMPLED / Stronger than Contractor Grade pads & rolls / the dimples reduce linting / perforated to waste less

★★★★

BONDED-SM / Stronger tensile strength than the dimpled pads & rolls / one side is lint-free / perforated every 7.5" vertically and 19" horizontally to waste less

★★★★★

FINE FIBER / Super-strong tensile strength / very low lint / grips floors / perforated every 7.5" vertically and 19" horizontally to waste less

★★★★★

SMS BONDED / Super-strong tensile strength / no lint / perforated every 7.5" vertically and 19" horizontally to waste less

Universal Fine Fiber Meltblown Pads & Rolls (FMF)

The highest quality pads and rolls we manufacture

Our fine fiber sorbents are constructed with 3 plies of polypropylene—fine fiber/meltblown/fine fiber. These pads and rolls are universal so they are used to absorb oil, water, and water-based chemicals. Dark gray pads hide grime, which makes pads last longer. High-strength, low-linting sorbents are used where added durability is a must. The smooth, fine fiber surface adds the strength needed for high-traffic areas. Using small-diameter strands of fiber increases surface area, which enables pads and rolls to grip surfaces securely. Both pads and rolls are used to contain and absorb splashes and spills under and around machinery. These are the highest quality pads and rolls that we manufacture. The fine fiber polypropylene increases the strength and durability of the pads and rolls so they can be perforated like a paper towel. Perforations will help reduce waste and allow you to use the exact amount needed for the job.

Pads

TOP SELLER

Universal Bonded Meltblown Pads & Rolls (SM)

Our bonded-SM sorbents are constructed with 2 plies of polypropylene—spunbond/meltblown. These pads and rolls are universal so they are used to absorb oil, water and water-based chemicals. Bonded-SM pads and rolls share the same features as our dimpled meltblown pads and rolls, plus an extra layer of spunbond polypropylene that is bonded to the top to make the pads and rolls low-linting on one side and highly absorbent on the opposite side. The bonding process increases the strength and durability of the pads and rolls so they can be perforated like a paper towel. Perforations will help reduce waste and allow you to use the exact amount needed for the job. These pads and rolls are the best of both worlds—the lint-free top sheet side can be used to clean and wipe tanks, tools, walls, etc. without leaving lint, but you also can use the meltblown side for quick absorption of fluids. We recommend these pads as the “best bang for your buck.”

Universal Dimpled Meltblown Pads & Rolls

Our dimpled sorbents are constructed with 1 ply of meltblown polypropylene. These pads and rolls are universal so they are used to absorb oil, water and water-based chemicals. Dimpled pads and rolls share the same features as our bonded-SM pads and rolls without the added layer of spunbond. By not adding the extra layer of spunbond, it makes the pads and rolls more economical. The dimpling process increases the strength and durability of the pads and rolls so they can be perforated like a paper towel. Perforations will help reduce waste and allow you to use the exact amount needed for the job.

SMS—Universal Bonded Meltblown Pads & Rolls

Our SMS bonded sorbents are constructed with 3 plies of polypropylene—spunbond/meltblown/spunbond. These pads and rolls are universal so they are used to absorb oil, water and water-based chemicals. These are our most durable sorbent pad and rolls combining two technologies to form one super-strong pad. A thirsty absorbent layer of meltblown is bonded between two layers of lint-free, spunbond fabric. These lint-free pads and rolls will not contaminate your equipment. Use in areas that require a durable, long-lasting pad or roll. The spunbond polypropylene increases the strength and durability of the pads and rolls so they can be perforated like a paper towel. Perforations will help reduce waste and allow you to use the exact amount needed for the job.

OIL-ONLY ABSORBENTS

Ideal for responding to petroleum-based spills on both land and water.

These pads will float on water so they are best suited for spills outdoors or on bodies of water. Can also be used indoors for any petroleum-based fluid such as oils, gasoline, diesel, etc. These pads and rolls come in 5 qualities— Fine Fiber-FMF, Bonded-SM, Dimpled, SMS Bonded and Standard Meltblown.

Fluids Absorbed

For absorbing oil while repelling water

- Motor Oil
- Hydraulic Oil
- Gasoline
- Diesel Fuel
- Jet Fuel

SRP12W	PWAS25	15" x 19", Double Wt.	9 gallons/bale	25/bale

Anti-Static Meltblown Roll

Model #	Mfg #	Description	Absorbs	Packaging
SRR12W	RHWAS150	30" x 150', Double Wt.	64 gallons/roll	1 roll

Booms

Linkable booms are used to contain and absorb spills on or off water. The built-in steel connectors link booms together to cover large areas of water. Booms are encased with a lint-free poly sock that prevents shedding.

Booms

Model #	Mfg #	Description	Absorbs	Packaging
B8	BW8104	8" x 10', Lint-free	65 gallons/bale	4 booms/bale
B820*	BW8202	8" x 20', Lint-free	65 gallons/bale	2 booms/bale
B5	BW5104	5" x 10', Lint-free	35 gallons/bale	4 booms/bale
B520*	BW5202	5" x 20', Lint-free	35 gallons/bale	2 booms/bale
B310*	BW3104	3" x 10', Lint-free	12 gallons/bale	4 booms/bale
B3	BW3202	3" x 20', Lint-free	12 gallons/bale	2 booms/bale

*These new sized booms are made to order and not kept in inventory.

EXTRA TOUGH

Boom XT

Are you using sorbent boom near rocky shoreline? Does the tide go out and leave your boom lying high and dry on a rocky bottom? Rocks and barnacles will rip and tear standard sorbent booms and cause the shredded polypropylene to release, making more of a mess than when you started. Introducing the Boom XT—the Boom XT is made from HDPE netting, which is a lot stronger than traditional boom nets. The HDPE netting also is UV-treated to protect the polypropylene from the sun's damaging UV rays. If you are working in harsh marine environments, you need Boom XT.

Boom XT

Model #	Mfg #	Description	Absorbs	Packaging
B5XT	BW510XT	5" x 10', Lint-free	35 gallons/bale	4 booms/bale
B8XT	BW810XT	8" x 10', Lint-free	65 gallons/bale	4 booms/bale

Sweeps

Designed for rapid spill cleanup/containment on or off water. Reinforced nylon straps, together with laminated spunbond fabric, add the extra strength needed for towing capabilities. Sweeps are ideal for removing thin slicks off water.

Sweeps

Model#	Mfg #	Description	Absorbs	Packaging
SW100*	SHWS100	White, 19" x 100' w/Straps	18 gallons/bale	1/bale
SW100B	SHBS100	Blue, 19" x 100' w/Straps	18 gallons/bale	1/bale

*White sweep is special order. Please call our office for ordering details.

HAZMAT ABSORBENTS

Ideal for responding to spills of unknown liquids.

These pads and rolls will absorb virtually all acid and base liquids. Hazmat sorbents are quickly deployed and recovered in hazardous spill applications. Pads and rolls come in two qualities, both Fine Fiber-FMF and Bonded-SM Meltblown.

Fluids Absorbed

- Acids & Bases
- Aggressive Chemicals
- Oils
- Solvents
- Citric Acid
- Water-based Fluids
- Sodium Hydroxide
- Other Unknown Liquids

Full list of fluids absorbed on page 81

Quality Rating of Pads & Rolls

★★★★

BONDED-SM / Stronger tensile strength / one side is lint-free / perforated every 7.5" vertically and 19" horizontally to waste less

★★★★★

FINE FIBER / Super-strong tensile strength / very low lint / grips floors / perforated every 7.5" vertically and 19" horizontally to waste less

Hazmat Fine Fiber Meltblown Pads & Rolls (FMF)

★★★★★
QUALITY

Our fine fiber sorbents are constructed with 3 plies of polypropylene—fine fiber/meltblown/fine fiber. High-strength, low-linting sorbents are used where added durability is a must. The smooth, fine fiber surface adds the strength needed for high-traffic areas. Using small-diameter strands of fiber increases surface area, which enables pads and rolls to grip surfaces securely. These are the highest quality pads and rolls that we manufacture. The fine fiber polypropylene increases the strength and durability of the pads and rolls so they can be perforated like a paper towel. Perforations will help reduce waste and allow you to use the exact amount needed for the job.

FMF Hazmat Pads

Model #	Mfg #	Description	Absorbs	Packaging
FFP1113Y	PHYFF1001014	10" x 14", Double Wt.	18 gallons/bale	100/bale

BR12Y-2	RHYB1502	15" x 150', Double Wt.	52 gallons/roll	2 rolls

Hazmat Bonded Meltblown Pads & Rolls (SM)

★★★★★
QUALITY

Our bonded—SM sorbents are constructed with 2 plies of polypropylene—spunbond/meltblown. Bonded—SM pads and rolls share the same features as our dimpled meltblown pads and rolls, plus an extra layer of spunbond polypropylene that is bonded to the top to make the pads and rolls low-linting on one side and highly absorbent on the opposite side. The bonding process increases the strength and durability of the pads and rolls so they can be perforated like a paper towel. Perforations will help reduce waste and allow you to use the exact amount needed for the job. These pads and rolls are the best of both worlds—the lint-free top sheet side can be used to clean and wipe tanks, tools, walls, etc. without leaving a mess, but you also can use the meltblown side for quick absorption of fluids.

Hazmat Booms

Linkable booms are used to confine and absorb large spills on land. Absorbs hazardous or unknown liquids including oil and water based chemicals. The built-in durable connectors link booms together to cover large areas. Booms are encased with a lint-free poly sock that prevents shedding.

Hazmat Booms

Model #	Mfg #	Description	Absorbs	Packaging
B5-H	BY5104	5" x 10', Lint-free	30 gallons/bale	4/bale
B8-H	BY8104	8" x 10', Lint-free	48 gallons/bale	4/bale

ECO-SOP™

Saving our Planet with “Earth Friendly” Absorbents Gone Green

To help save our planet, we all need to contribute. Now more than ever, we need to consider using recycled products when at all possible. We also need to cut back on our use of petroleum and petroleum-based products. Using Eco-Sop™ Sorbents will do just that. Unlike traditional meltblown polypropylene pads and rolls, these sorbents are not made from petroleum. This will not only help save our environment, but will help to keep the cost down. These products are made using 95% American-grown, natural, renewable and recycled resources. Additives increase the sorbents' natural absorbency.

Natural White – Oil-Only — Absorbs oil only; will not absorb water.

Gray – Universal — Absorbs oil, water, and water-based chemicals.

Natural White — Oil-Only

Model #	Mfg #	Description	Absorbs	Packaging
OILM1082	PHWC100	Heavy Weight Pads, 16" x 18"	24 gallons	100/bale
OILM1083	PMWC100	Medium Weight Pads, 16" x 18"	21 gallons	100/bale
OILM1084	RWC28150H	Heavy Weight Roll, 28" x 150'	42 gallons	1 roll

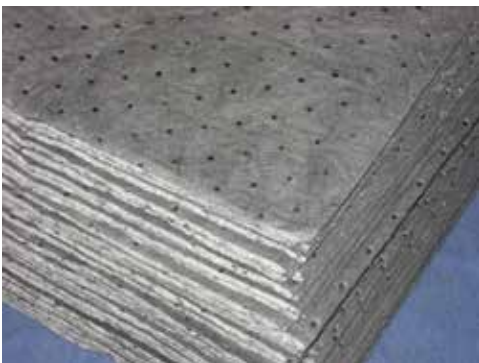

Gray — Universal

Model #	Mfg #	Description	Absorbs	Packaging
OILM1087	PHGCU100	Heavy Weight Pads, 16" x 18"	26 gallons	100/bale
OILM1088	PMGCU100	Medium Weight Pads, 16" x 18"	20 gallons	100/bale
OILM1089	RHCU150	Heavy Weight Roll, 28" x 150'	45 gallons	1 roll

Aqua Lock Absorbents

Gray Universal Aqua Lock Sorbents — Absorbs oil- and water-based spills. A hybrid pad combining a fine fiber polypropylene cover stock which makes this pad low-linting and very durable. Added SAF technology that turns absorbed water-based liquids into a gel and prevents leaking from used sorbent pads and rolls. These pads are super thirsty and will encapsulate absorbed fluids with ease.

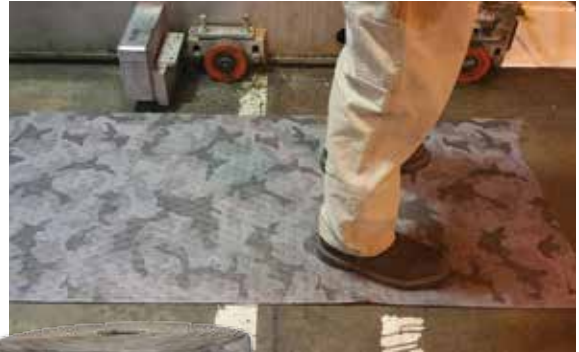

Gray — Universal Aqua Lock

Model #	Mfg #	Description	Absorbs	Packaging
OILM1092	PHGSSCA100	Heavy Weight Pads, 16" x 18"	27 gallons	100/bale
OILM1093	RHGSCA150	Heavy Weight Roll, 28" x 150'	47 gallons	1 roll

Camo Matting

The camouflage design makes leaks and drips disappear. Lasts longer than the standard gray and white meltblown rolls. This allows you to leave it on the ground for longer lengths of time, which will cut back on your spending. A spunbond top sheet provides extra strength and durability. The bottom layer of fine fiber meltblown grips the floor and provides a safe, secure walkway. Multiple perforations allow you to tear off and use only what you need.

Camo Matting

Model #	Mfg #	Description	Absorbs	Packaging
OILM6013	PHCSF100	Camo Mat Pad, 15" x 18"	30 gallons/bale	100/bale
OILM6019	RHCSF1502	Camo Mat Roll, 15" x 150'	36 gallons	2 rolls
OILM6012	RHCSF150	Camo Mat Roll, 30" x 150'	36 gallons	1 roll

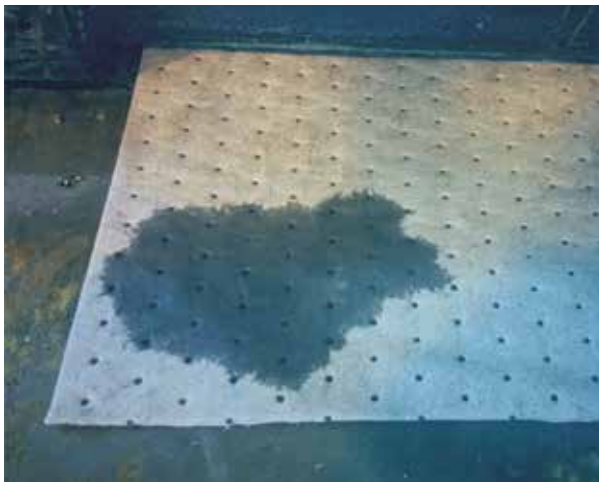

Poly-backed Pads

Added protection for your floors. Great strength and absorbency, combined with a nonskid poly backing to prevent liquids from seeping through to the floor.

Poly-backed Pads

Model #	Mfg #	Description	Absorbs	Packaging
DP12GPB	PHGB100PB	15" x 19", Double Wt. Pads	25 gallons	50/bale

Industrial Rugs are used in place of sorbent rolls when durability is a “must.” Industrial rugs are manufactured to last. These rugs can withstand foot and forklift traffic much better than traditional sorbent rolls.

Needle-Punch

Constructed of 100% polypropylene, this rug is made to withstand constant foot and forklift traffic. Will absorb oil, water, coolants and solvents. Also used in decontamination areas on job sites.

Needle-Punch

Model #	Mfg #	Description	Absorbs	Packaging
RNP	RMGNP300	36" x 300', Needle-punch Rug, Black	64 gallons/rug	1 rug
RNP-S	RMGNP300S	36" x 300', Needle-punch Rug, (seconds), Gray	60 gallons/rug	1 rug
OILM6004	RHGNP150	36" x 150', Needle-punch Rug, Gray	64 gallons/rug	1 rug

Poly-backed Needle-Punch

These are needle-punch rugs that are coated with an impermeable, nonskid backing. This prevents liquids from seeping through to the floor.

Poly-backed Needle-Punch

Model #	Mfg #	Description	Absorbs	Packaging
PBRNP	RSNPPB100	36" x 100', Poly-back Needle-punch Rug	16 gallons/rug	1 rug

Rag Rug

This rug is made from recycled textiles and is very thick and durable. Dark-colored mats absorb the grunge from oils, coolants, solvents and water without looking dirty. The tough, durable rag rug is ideal for use in high-traffic areas.

Rag Rug

Model #	Mfg #	Description	Absorbs	Packaging
RTR-1	RHRAG150	36" x 150', Rag Rug	50 gallons/rug	1 rug

Railroad Track Matting

Absorbs Oils, Fuels and Other Hydrocarbon-based Fuels

MOST DURABLE

Strong 3-ply construction—1 layer UV-resistant, extra tough needle-punch polypropylene, 1 layer oil-only cotton, and a poly backing to prevent seepage. Use the two 19" rolls outside the tracks and the 59" roll between the rails. Can be used to absorb oil, fuels and other hydrocarbon-based fuels in railroad yards.

Railroad Track Matting

Model #	Mfg #	Description	Absorbs	Packaging
OILM5997	RRT191002	RR Track Mats, 19" x 100', Outside Pieces	40 gallons	2/pack
OILM5996	RRT59100	RR Track Mat, 59" x 100', Center Pieces	60 gallons	1 roll

SMP Track Mat

The ultimate barrier sorbent used most commonly in railroad maintenance yards, but can also be used as a barrier matting in garages and service centers. The 3-ply construction consists of a tough UV-resistant spunbond top sheet, a highly absorbent oil-absorbing meltblown polypropylene on the inside, and a super strong impermeable polyurethane bottom sheet. These are sized to fit between a set of railroad tracks.

SMP Track Mat

Model #	Mfg #	Description	Absorbs	Packaging
OILM5992	RHRR59100	SMP Track Mat, 59" x 100'	68 gallons	1/bag
OILM5991	RHRR191002	SMP Track Mat, 19" x 100'	45 gallons	2/bag

Ground Guards

Ground Guards are an economical way to help keep your boatyard clean and to help protect waterways from harmful, contaminated run-off. Two sizes to choose from depending on the size of your boat. The geotextile is made from a high-quality polypropylene which will not rip or tear. Ground Guards will catch paint chips and oils that run off boats during power washing or just general maintenance or painting. Ground Guards will act as a filter for contaminants. This product is reusable.

Ground Guard

Model #	Mfg #	Description	Packaging
OILM6023	RHGPNP50	15' x 50', Geotextile Ground Guard	1/pack
OILM6024	RHGPNP25	15' x 25', Geotextile Ground Guard	1/pack

Pillows

Used to absorb large amounts of fluids where a pad just isn't enough. Also good to use in tight, hard-to-reach areas. Use oil-only pillows on both land and water. Great in coolant tanks and sump wells. Use our universal pillows for MRO liquids and our hazmat pillows for acids, bases and unknown liquids.

Pillows

Model #	Mfg #	Description	Sorbent Capacity	Packaging	Absorbs
915-O	PILW91516	9" x 15"	17 gallons/case	16/case	oil-only
1818-O	PILW181816	18" x 18"	28 gallons/case	16/case	oil-only

1824-H	PILY182415	18" x 24"	30 gallons/case	15/case	hazmat

Mesh Bag Pillow

Polypropylene particulate encased in a nylon mesh bag. Used to absorb larger spills on water. Just toss it on the spill. Floats for easy retrieval, even when saturated.

Mesh Bag Pillow

Model #	Mfg #	Description	Absorbs	Packaging
OILM3598	PILWMB142410	Mesh Bag Pillow, 14" x 24"	37 gallons	10/bale

Spaghetti Pillow

For oil-based liquids, not water or water-based chemicals. These pillows are filled with hydrophobic polypropylene spaghetti strips designed to absorb thick oils off water. Ideal for use in fast-flowing waters. Easily deployed into storm drains. Rope loop allows for easy retrieval from land or boat. The tough outer mesh is UV-resistant for long-term outdoor use.

Spaghetti Pillow

Model #	Mfg #	Description	Sorbent Capacity	Packaging
OILM3597	PILWMS24245	Spaghetti Pillows, 15" x 15"	31 gallons/bag	10 pillows/bag

Sturdy, absorbent socks are used to absorb and contain spills around machines or drums. Wrap socks around machinery to act as a dike. Also use socks to surround the spill, preventing liquids from spreading over the plant floor or down drains. These products are available in many types and sizes. Socks are color-coded to match our pads and rolls for safety and ease of use—choose the right one for your application.

Oil-Only Sock

These socks will not absorb water or water-based liquids. Highly absorbent and dust-free, these socks help keep a clean and safe working environment. Use these socks outdoors if needed.

Oil-Only Sock

Model #	Mfg #	Description	Sorbent Capacity	Packaging
S4B	SOCW34830	3" x 4'	30 gallons/case	30 socks/case
S4B-10	SOCW34810	3" x 4'	10 gallons/case	10 socks/case
S8B	SOCW39615	3" x 8'	30 gallons/case	15 socks/case
S12B	SOCW314410	3" x 12'	30 gallons/case	10 socks/case
S20B	SOCW32406	3" x 20'	30 gallons/case	6 socks/case

Universal/Maintenance Sock

Our most versatile sock, specially treated to absorb oils, coolants, solvents and water-based fluids. These socks also can be used for some chemicals as well, but to be extra safe when picking up caustic chemicals, we recommend using our hazmat socks, which are color-coded yellow for safety.

Universal/Maintenance Sock

Model #	Mfg #	Description	Sorbent Capacity	Packaging
S4G	SOCG34830	3" x 4'	30 gallons/case	30 socks/case
S8G	SOCG39615	3" x 8'	30 gallons/case	15 socks/case
S12G	SOCG314410	3" x 12'	30 gallons/case	10 socks/case
S20G	SOCG32406	3" x 20'	30 gallons/case	6 socks/case

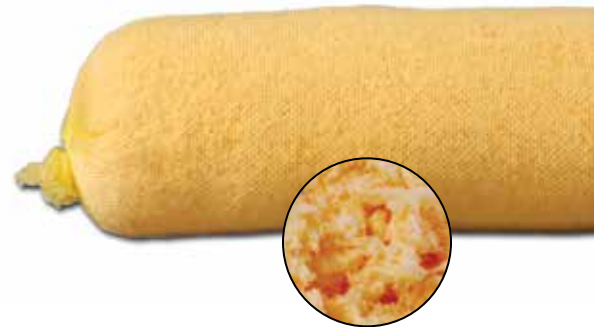

Hazmat Sock

Use hazmat socks for caustic fluids or fluids of an unknown origin. These 100% polypropylene socks soak up nearly any acid, base or solvent. Color-coded, so you know what to expect when you see them being used.

Hazmat Sock

Model #	Mfg #	Description	Sorbent Capacity	Packaging
S4Y	SOCY34830	3' x 4'	30 gallons/case	30/case
S4Y-10	SOCY34810	3' x 4'	10 gallons/case	10/case
S8Y	SOCY39615	3' x 8'	30 gallons/case	15/case
S12Y	SOCY314410	3' x 12'	30 gallons/case	10/case

Corn Cob Sock

This is an excellent sock at a great value. Corn cob filler makes the socks highly flexible and easily moldable around tight corners. These socks will not absorb aggressive fluids.

Corn Cob Sock

Model #	Mfg #	Description	Sorbent Capacity	Packaging
S4CC	SOCCC34220	3" x 42"	20 gallons/case	40/case

Universal Super Sock

This sturdy, absorbent sock, filled with superabsorbent foam, will soak up gasoline, water and water-based fluids faster than any other sock. This sock also retains fluids better than any other sock.

Universal Super Sock

Model #	Mfg #	Description	Sorbent Capacity	Packaging
S4CPB	SOCCLU34830	3' x 4'	30 gallons/case	30/case

Roll-off Super Sock

These super-absorbent socks are made with a blend of recycled cellulose and SAP (super-absorbent polymer). The SAP will lock the water in place so no leaching will occur. Best used in the tail end of roll-off containers or dump trucks to prevent leakage while on the road.

Roll-off Super Sock

Model #	Mfg #	Description	Sorbent Capacity	Packaging
S7CPB	SOXCLDS7965	7" x 8'	41 gallons/bale	5/bale

Well Sock

Designed specifically for absorbing hydrocarbons from wells. The 1½" diameter and the loop-on end allow for easy lowering and retrieval from monitoring wells.

Well Sock

Model #	Mfg #	Description	Size	Absorbs	Packaging
OILM206	SOCW32420	Well Socks	1.5" x 2'	5.5 gallons	20/case

Bilge Sock

Prevent costly fines from oil discharge into navigable waters. Bilge socks prevent pollution by absorbing the oil, gasoline and diesel that can accumulate in the bilge of a boat. Most boats are expected to require one or two bilge socks during each boating season to capture oil and fuel leaking into their bilge compartments.

Bilge Sock

Model #	Mfg #	Description	Size	Absorbs	Packaging
OIL450	BW31820	Bilge Socks	3" x 18"	8 gallons	20/case

Bilge Boom (Mini Boom)

For use in boat bilges of all sizes. Use the 8" x 18" in commercial size boats and the 5" x 15" in smaller pleasure crafts. Like the smaller bilge sock, these highly absorbent mini booms will help prevent pollution of our marine waters. Booms will absorb oils and fuels and will float on water.

Bilge Boom

Model #	Mfg #	Description	Size	Absorbs	Packaging
OILM3017	BW51512	Mini Boom	5" x 15"	12 gallons	12/case
OILM3019	BW81810	Mini Boom	8" x 18"	28 gallons	10/case

Drip Pans

This new style drip pan comes with a removable sorbent pillow which allows you to keep the pan and just change out the pillow.

This means you spend less, and you help save the environment by not throwing out the pan every time it needs to be changed. The low profile is easy to fit in tight spaces where leaking spigots are a problem. When full, tray will hold up to three-quarters of a gallon. Replacement pillows sold separately.

Drip Pans

Model #	Mfg #	Description	Sorbent Capacity	Absorbs	Packaging
DP-U	DPU1010	Drip Pans, 10.5" x 10.5" x 3"	12 gallons/case	universal	16/case
DP-O	DP01010	Drip Pans, 10.5" x 10.5" x 3"	12 gallons/case	oil only	16/case
DPP-U	DPUR1010	Drip Pan Replacement Pillows	12 gallons/case	universal	16/case
DPP-O	DPOR1010	Drip Pan Replacement Pillows	12 gallons/case	oil only	16/case

Drum Tops

Keep your drum containment area neat and clean with pre-cut 55-gallon drum tops. Available in both oil-only and universal.

Drum Tops

Model #	Mfg #	Description	Sorbent Capacity	Absorbs	Packaging
D22-O	PHWFFDT25	Drum Tops, 22" diameter	7 gallons/bale	oil-only	25/bale
D22-U	PHDTGFF25	Drum Tops, 22" diameter	7 gallons/bale	universal	25/bale
DL22-O	PSBFFDT25	Lt. Wt. Drum Tops, 22" diameter	3.5 gallons/bale	oil-only	25/bale
DL22-U	PSDTGFF25	Lt. Wt. Drum Tops, 22" diameter	3.5 gallons/bale	universal	25/bale

Particulate

Chopped polypropylene can be used on both land and water. A dust-free alternative to clay.

Particulate

Model #	Mfg #	Description	Sorbent Capacity	Absorbs	Packaging
PT-O	PART25W	Shredded Particulate	35 gallons/bale	oil-only	1 box

Roll Rack

This freestanding vertical roll rack on wheels keeps rolls off messy floors for easy access when you need them. Fits any roll up to 30" wide.

Roll Rack

Model #	Mfg #	Description
OILM5040	SRRACK	Vertical Sorbent Roll Rack on Wheels, holds rolls up to 30" in width

SPILL KITS

Nobody wants an oil spill—
but accidents do happen. Don't be caught unprepared!
Like a fire extinguisher is to a fire, a spill kit is to an oil or chemical spill.
Choose the right kit for your company's needs.

Spill Kits on Wheels

Wheeled overpack spill kits are very popular in industrial plants and factories. Since you can't bring the spill to the kit, bring the kit to the spill with a wheeled salvage drum. Both the 95-gallon and 50-gallon models allow the user to maneuver ample absorbents wherever a spill occurs.

MARINE SPILL RESPONSE

The oceans cover 71 percent of the earth's surface and contain 97 percent of the earth's water.

With this in mind, we need to make sure we protect them and keep them clean for generations to come. We carry a variety of containment booms, skimmers and accessories to help aid in the protection of our waters and shorelines.

Oil Snare on a Rope

Page 39

Response Boom

Page 41

Oil Snare™

Oil Snare™ products were developed for the recovery of Bunker C, Crude Oil, and Numbers 4, 5 & 6 oil. Oil Snare utilizes the oil's natural stickiness to entrap it within thousands of plastic tentacles. Operative even in subfreezing conditions. Oil Snare products are made up of flat polypropylene ribbon yarn configured into two different products (Oil Snare Singles, Oil Snare on a Rope).

Oil Snare is hydrophobic, oleophilic, nontoxic or corrosive, non-scattering, inert, floats (will not sink) indefinitely. Oil Snare is resistant to rot and mildew after long storage and does not have a shelf life. Oil Snare products can be drained or doused with #1 or #2 oil which removes the heavy oils, allowing units to be reused if desired, and allowing recycling of extracted oil as downgraded fuel.

Model #	Mfg #	Description	Weight
OILM6050	MSRSNS30	Oil Snare Singles, 30/bag	15 lbs.
OILM6052	MSRSNR50	Oil Snare on a Rope, 30/50' rope	16 lbs.

Oil Snare will typically recover from 20 to 60 times its own weight, depending on the viscosity of the oil. The thicker the oil, the better Oil Snare adsorbent will work.

TYPICAL RECOVERY RATES	
(Lbs. of oil per lb. of Oil Snare adsorbent)	
#6 oil – 64 lbs.	@ 35°F
#6 oil – 32 lbs.	@ 70°F
#5 oil – 24 lbs.	@ 70°F
#5 oil – 16 lbs.	@ 82°F
#4 oil – 18 lbs.	@ 65°F
Alaskan crude – 40 lbs.	@ -2°F

Skimmers

Skim-pak weir-type skimmers are simply the best skimmers money can buy. Skim-paks are lightweight and compact, easily deployed and operated by one person. The weir automatically adjusts to the pump rate, continually maintaining a skim. Skim-pak skimmers can be set up for unattended operation or fitted with an operator control accessory package.

Drum Skimmers

Drum skimmers are constructed of lightweight aluminum and are designed for both portability and extreme durability on the toughest jobs. Available in 24", 36" and 48" versions. Single or multiple drum designs are also available. Ideal for use on inland and marsh spills since it is capable of operating at water depths as shallow as 3". Recovery rates of up to 35 gallons per minute.

Call our office for further details on skimmers.

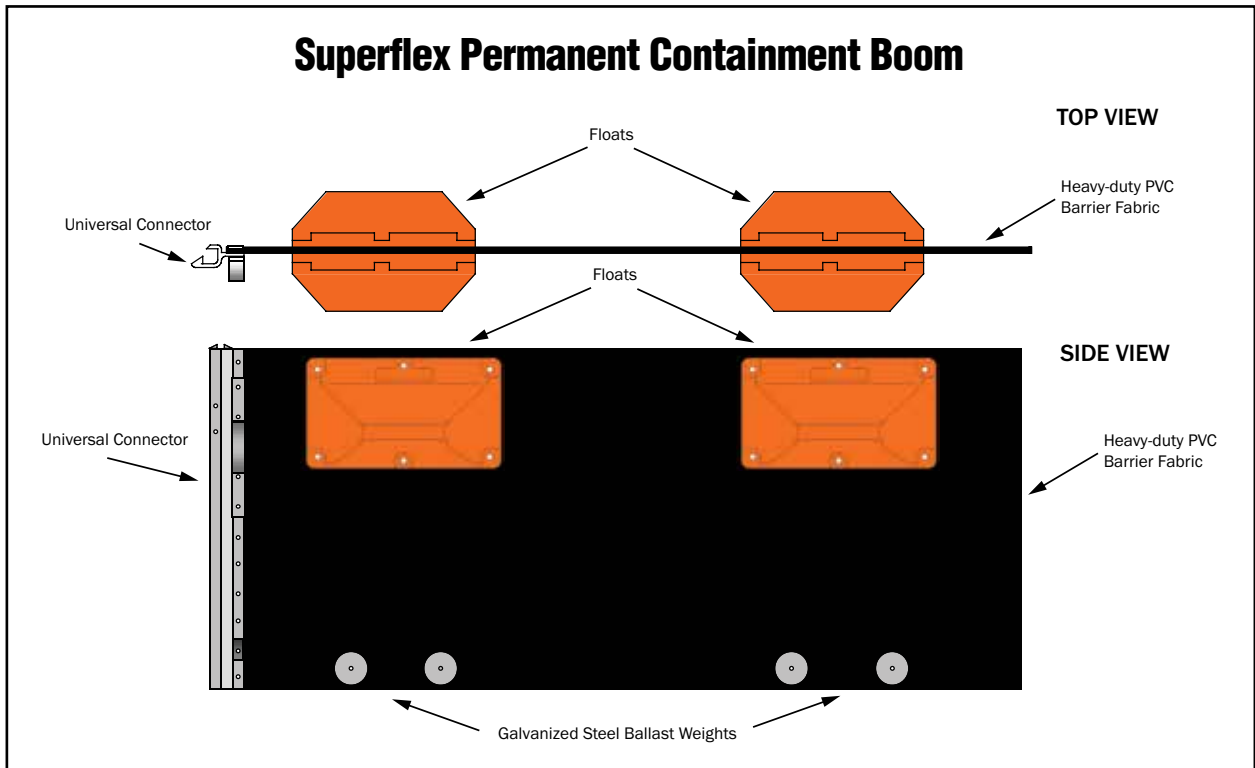

CONTAINMENT BOOMS

Permanent Containment Boom

The economical solution to provide continuous facility protection and containment. This permanent boom system features easy deployment, high visibility, and abrasion resistance. Permanent containment booms are designed for deployment at permanent sites such as waterfront oil handling facilities, or around ships in repair or storage. This containment boom is more economical, lighter weight per foot, and has a higher buoyancy-to-weight ratio than other permanent booms.

Model #	Mfg #	Description	Weight
OILM092	MSRCBP1000	18" Permanent Boom, Universal Connectors, 175 oz. PVC	18" x 100'
OILM094	MSRCBP1001	18" Permanent Boom, Universal Connectors, 175 oz. PVC	18" x 50'
OILM262	MSRCBP1002	24" Permanent Boom, Universal Connectors, 175 oz. PVC	24" x 100'
OILM263	MSRCBP1003	24" Permanent Boom, Universal Connectors, 175 oz. PVC	24" x 50'

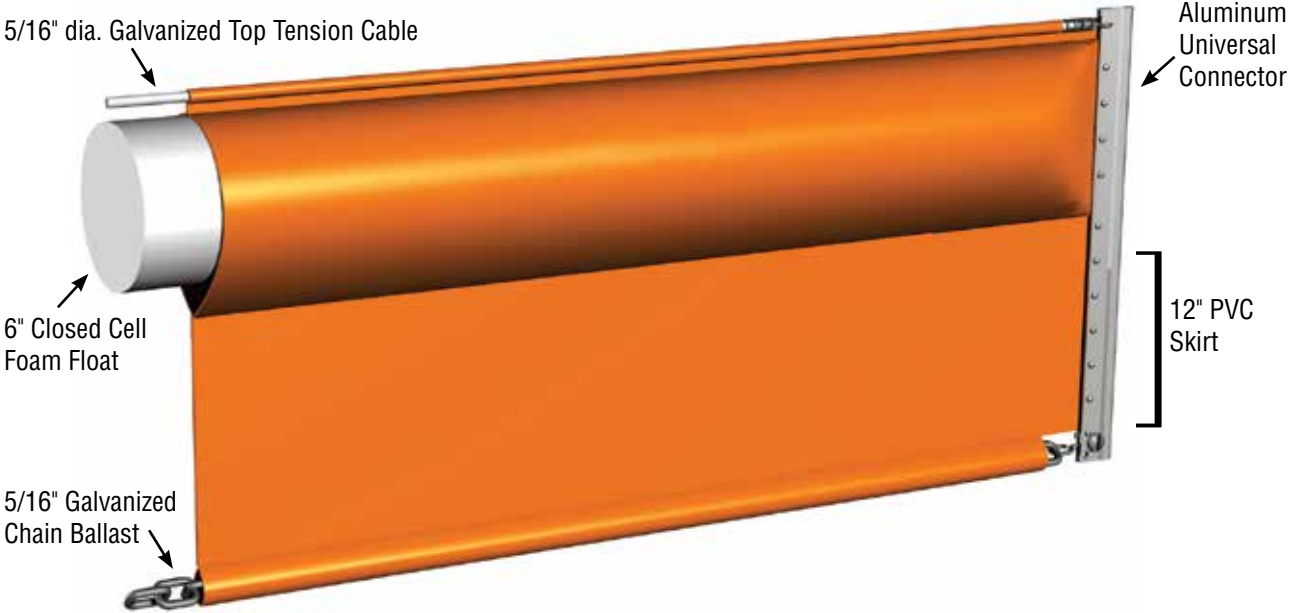

Response Boom

Use containment booms to surround and contain oil or sewage spills. Also used to retain debris. Can be used in fresh or salt water. Ideal for holding ponds, marinas, or spill response teams.

Model #	Mfg #	Description	Weight
OILM099	MSRCBR1000	6" Float, 12" Skirt, Universal Connectors, with Top Tension Cable	18" x 100'

OILM100	MSRCBR1003	6" Float, 12" Skirt, Universal Connectors	18" x 100'
OILM200	MSRCBR1004	3" Float, 5" Skirt, Slotted Tube Connectors	8" x 100'

Bulkhead Risers

Bulkhead risers are used to allow your containment booms to rise and fall with the tide. Fiberglass bulkhead riser with floats and connectors for 6" flange H beam. Easily mounted on docks or piers.

Model #	Mfg #	Description
OILM259	MSRCBA1001	24" Fiberglass Bulkhead Riser/Universal ASTM connectors
OILM267	MSRCBA1002	18" Fiberglass Bulkhead Riser/Universal ASTM connectors

Boom in a Bag

Ever find yourself needing a containment boom in a pinch, but you don't have the manpower to deploy the standard 18" containment boom? Or maybe an 18" boom is just too much for the job. Our new Boom in a Bag is the perfect solution. This highly compact, featherlight response boom is great for small spills of all kinds. Boom in a Bag has 50' of 8" containment boom, which consists of a 3" float and a 5" skirt. Made out of 22 oz. PVC, this boom uses lightweight, easy-to-use slotted tube connectors for easy connections. Stored in a PVC bag, one person is all it takes to carry and deploy. Great for marinas, because it won't take up much space. In fact, this boom could be stored in a closet or in the back of a pickup truck.

Model #	Mfg #	Description	Size
BOOM1035	MSRCBS1500	Boom in a Bag, 3" Float, 5" Skirt, Slotted Tube Connectors	8" x 50'
BOOM1036	MSRCBS1501	PVC Bag for storing "Boom in a Bag"	

*Bag sold separately

Danforth® Anchors

Danforth® anchors are used to secure booms to the ocean floor. This anchor has the traditional holding power which has always been associated with Danforth® anchors. The shank is made of high-strength steel. The steel flukes are strong and wide. Each anchor has a hot-dipped, galvanized coating for long-lasting protection.

Model #	Mfg #	Description
OILM090	MSRCBA1004	22 lb. Danforth® Anchor

Anchor Chain

Our 3/8" anchor chain is used to secure boom anchoring systems. Strengthens anchor hold and eliminates fouled anchor lines. Galvanized, oil-proof chain comes packed as 63' of chain in a 5-gallon bucket.

Model #	Mfg #	Description
OILM087	MSRCBA1005	3/8" Anchor Chain, holds up 6,600 lbs.

Polyform Anchor Buoys

Polyform anchor buoys are a one-piece construction with a reinforced, rigid "rope hold" eye and unique vinyl valving system. Applications include commercial fishing, offshore oil research, and general commercial marine. Use the buoys with your containment boom anchoring system.

Model #	Mfg #	Description
OILM088	MSRCBA1003	Polyform Anchor Buoys, A-O Red

Galvanized Shackles

Galvanized shackles are used to connect anchors to chain.

Model #	Mfg #	Description
OILM089	MSRCBA1002	3/8" Screw Pin, Galvanized Shackles

Polypropylene Line

Polypropylene line is strong and resistant to mildew, rot and most chemicals. Use this in your containment boom anchoring system.

Model #	Mfg #	Description
OIL753	MSRCBA1008	Polypropylene Line, 1/2" x 600', 3-Strand Twisted Rope

Tow Bridals

Use tow bridals to tow containment boom behind a boat. Fits all 18" booms with universal connectors.

Model #	Mfg #	Description
BOOM1008	MSRCBA1007	Tow Bridal for 18" Containment Boom

WIPERS & RAGS

Maintaining a neat and clean workplace is essential for workers morale and safety.

Since the beginning of the industrial revolution, manufacturers have used knit rags to keep tools and equipment clean and looking good. Another common use is for personal hygiene while working on dirty jobs. In addition to the traditional knit rags, we also have a great selection of nonwoven wipers that are much more efficient to use in this day and age. Wipers come in a variety of sizes and put-ups. Choose the wipe best suited to your needs.

Blue Spunlace Wipers on a Roll

Page 46

Spunlace Wipers

No more expensive shop towels

Are you renting your shop rags from a uniform/linen rental company? Are you tired of getting overage charges on your monthly bills for lost rags? Ever wonder how you could lose so many rags? Do you find that each month there are extra charges for a damage fee, energy charge, delivery charge, replacement fee, or environmental/fuel surcharge? Rental companies are notorious for all of these extra fees. When you buy a disposal wiper that works just as well, if not better, you can eliminate all of those "add-on" charges. In addition to the obvious cost savings, there is also a real benefit that will help to ensure the safety of your employees or equipment. Metal shavings, oils and hazardous chemicals can be present on "clean" laundered rental shop towels, presenting both possible hazards to health and the possibility of machinery getting snagged. Spunlace wipers are great on heavy industrial tasks, cleaning oil, grease and grime. Also good for wiping solvents and cleaning rough surfaces.

Holds Rolls up to 12" wide

Blue Spunlace Wipers

Exceptionally clean, low-linting, absorbent, strong and durable wiping product. Soaks up to four times its weight in water; also absorbs oil and solvents. Washes easily. Can be reused again and again, yet is inexpensive enough to be disposable. Available in quarter fold or on a roll.

*Hydrophobic Drop Cloth

SOFT & PLIABLE

Blue Spunlace Wipers

Model #	Mfg #	Size & Description	Put-Up	Application
NWP398	WIP1001	12" x 15" Blue Spunlace, Wiper	440/roll	heavy duty
NWP351	WIP1000	12" x 13" Blue Spunlace, 1/4 Fold, Wiper	1,000/case	heavy duty
NWP356*	WIP1500	40" x 72" Spunlace Disposable Drop Cloths	72/case	heavy duty

All-Purpose DRC Wetlay Wipers

A cellulose-based disposable wiper offering incredible absorbency and softness with an unmatched wipe-dry ability. Made from 100% bonded cellulose, this general purpose, highly absorbent wiper is ideal for medium- to heavy-duty wiping applications and is an excellent replacement for airlay wipers. Best used for wiping up grease, oils and small spills. Used for cleaning parts and tools; soft enough for hands and face.

DRC Wetlay Wipers

Model #	Mfg #	Size & Description	Put-Up	Application
NWP02311	WIP1302	9" x 15" All-purpose Wetlay, Pop-up	8 boxes of 100	medium duty
NWP0252	WIP1301	9" x 240' Center-pull Wetlay in Box, 221 Wipes	1 box	medium duty
NWP026	WIP1300	12.5" x 13.5" All-purpose Wetlay, 1/4 Fold	20 packs of 50	medium duty

Polypropylene Wipers

Polypropylene wipers are designed for wiping tasks where low lint or use of chemicals is required. Made for critical applications involving solvents, inks and paints. Acid/base and solvent-resistant. Perfect for use with lubricants, oil and grease. Applications include: furniture finishing, engine assembly/repair, pre-packaging wipe-down, LCD panel assembly, appliance assembly, printing and glass or window cleaning.

Polypropylene Wipers

Model #	Mfg #	Description	Weight
TOW802	RAG1007	New Shop Rags, red, 14" x 14"	500/case

GRANULARS/NEUTRALIZERS/ BIOREMEDIATION

Granulars are used to clean the residuals from a spill that pads and rolls just won't get.

Some specialty granulars like hydrocarbon solidifiers will actually encapsulate oils, which is much better for the environment compared to being absorbed by traditional sorbents. Our large variety of specialty granulars will not only absorb hazardous chemicals, but will also neutralize them at the same time. This is something that sorbent pads and rolls won't do.

Floor-Dry

Page 49

HCS Polymers

Page 51

Oil-Dri™

All-purpose floor absorbent. This clay-based product is packaged in poly bags to protect against moisture.

Floor-Dry

Contains millions of natural microscopic diatom "sponges." Great, dust-free oil absorbent. Excellent lab pack media. A 20-lb. bag of Floor-Dry will absorb more than a 40-lb. bag of clay. All-purpose absorbent absorbs most liquids.

Perlite

Perlite is a nontoxic, nonflammable, lightweight, environmentally safe and friendly absorbent that can absorb and hold most liquids, while leaving little or no residue. Less than half a pound of Perlite can completely absorb one quart of motor oil without leaving any residue to clean up. Clay, earth and sand products require 15 pounds of material to absorb the same amount and would leave a slippery residue.

Vermiculite

Vermiculite is used as a lightweight filler, liquid absorbent, paint filler/texturing agent, and liquid waste solidification agent. Used during shipping and lab packing. Can be used on all liquids.

Model #	Mfg #	Description	Packaging	Bags/Pallet
OIL040	GRAN1000	Oil-Dri™ Floor Absorbent	40 lb. bag	50
OIL046	GRAN1001	Floor-Dry, Diatomaceous Earth	20 lb. bag	84
OIL051	GRAN1002	Perlite, #720 Floor Absorbent	25 lb. bag	30
OIL067	GRAN1003	Perlite, #720 Floor Absorbent	1.5 lb. handled canister	8/box, 240 boxes/pallet
OIL052	GRAN1004	Vermiculite	20 lb. bag	30

Cellulose

A universal/maintenance sorbent made from recycled cellulose. It absorbs six times more than clay. Other benefits: noncarcinogenic, lightweight, low dust and nonabrasive. Absorbs both oil and water.

Absorbent W

Made from 100% recycled cellulose pulp, treated to absorb oil-based liquids — not water. Hydrocarbons are absorbed into the fibers and will not leach or drain. Ideal for removing contaminants from water.

Gran-sorb™

Lightweight, recycled paper waste soaks up oils, coolants, solvents, water, fuels and antifreeze. This is a safe product because paper waste is nontoxic and nonhazardous.

Dri-Zorb™

All-natural coarse corn cob is a great replacement for clay. Use this in most industrial applications. A great absorbent for cutting oils, greases, water, etc. This is not intended for use with aggressive fluids.

Model #	Mfg #	Size & Description	Packaging	Bags/Pallet
OILM7911	GRAN2000	Cellulose Floor Sweep	25 lb. bag	80
OIL057	GRAN2001	Absorbent W, Oil-only Cellulose	8 lb. bag	35
OIL041	GRAN2005	Gran-sorb™ Cellulose Absorbent	30 lb. bag	65
OIL055	GRAN2003	Dri-Zorb™ Coarse Corn Cob	40 lb. bag	50

Turn hydrocarbons into rubber!

Our HCS Polymer Boom is ideal for use in the marine environment.

Perfect for use at fuel docks and marinas. The HCS Polymer Boom can be placed in scuppers on ships to prevent hydrocarbon run-off from the decks of commercial vessels, and in engine rooms or bilges to remove oil from water. Booms also can be used on land applications to prevent hydrocarbons from entering storm drains.

A leap beyond absorption!

HCS polymers are used to solidify and suppress harmful vapors of sheen, gasoline, diesel and oils, including crudes, upon contact. The byproduct is a solid, rubber-like material that floats in water. Environmentally friendly, HCS polymer has been tested not harmful to aquatic life and waterfowl. The solidified byproduct is 100% recyclable as raw material for rubber and plastic production or asphalt, or can be burned as fuel.

Depending on your local and state regulations, HCS polymer also can be disposed of in a landfill. Other uses and applications are in the utility industry for SPCC Secondary Containment, and in oil contamination removal in underground vaults and manholes; HCS polymer also can be used to filter water in storm drains or industrial waste streams.

- > **Nontoxic**, noncarcinogenic, noncorrosive, nonhazardous
- > **Nonbiodegradable**; encapsulated waste will not produce a hazardous leachate
- > **Solidifies up to 8 times** its own weight
- > **Versatile** — hydrophobic by nature, so you can use it to clean spills on both land and water
- > **Safe and easy disposal**

Model #	Mfg #	Description
OIL898	HCSP1000	HCS Polymer, 2.25" x 150' Boom, 2/drum
OIL900	HCSP1002	HCS Polymer, 2.25" x 25' Boom, 2/case

OIL915	HCSP1008	HCS Polymer, Granular, 100 lb. Drum

Super Absorbent Aqueous Polymer

Minimal Volume & Weight Increase = Lower Transportation & Disposal Costs

Used for cleaning water-based spills and sludge stabilization. Hazardous and nonhazardous industrial waste streams often must be solidified and stabilized to pass the paint filter test prior to placement in appropriately permitted landfills. Industrial solidification traditionally has involved the addition of various agents, including kiln dust, saw dust and portland cement. This significantly increases the volume of material requiring transportation and disposal. The polymers solidify industrial liquid wastes with a nominal volume increase and ensure that liquid wastes pass the paint filter liquids test. Given the capacity to retain substantial volumes of water, there is limited increase in weight of solidified mass, thereby minimizing transportation and disposal costs.

Used in the solidification and removal of hazardous, nonhazardous and radioactive waste, super absorbent polymers are finding new uses in industry. Our polymers have been proven to be more cost-effective than alternatives on the market. In fact, Super Absorbent Polymers can absorb up to 275 times their weight in liquid. (Also available in super sacks.)

Super Absorbent Aqueous Polymer

Model #	Mfg #	Description	Packaging
OIL906	AQP1000	Aqueous Polymer	50 lbs.

Aqueous Polymer/Bentonite Blend

Rapid solidification of aqueous sludge streams with residual organics and petroleum contamination

This is a blend of super absorbent aqueous polymers and bentonite and organo clay. The polymers will absorb up to 275 times their weight in water, and the bentonite clay will absorb the oil. This product is great for sludge stabilization prior to and during transportation. If you have hydrocarbons mixed in with your sludge, the aqueous polymer alone will not work; bentonite is needed to absorb the hydrocarbons.

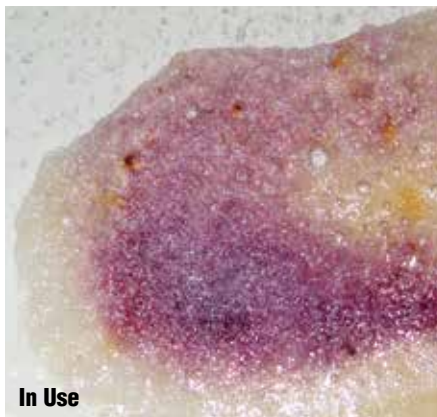

Aqueous Polymer/Bentonite Blend

Model #	Mfg #	Description	Packaging
OIL927	AQP1001	Aqueous Polymer/Bentonite Blend	50 lbs.

Acid and Base Neutralizing Polymers: Pads, Socks, Pillows & Granulars

Used to neutralize and solidify a wide range of both acid and base spills, thus reducing the risk of possible workplace injuries. These highly effective spill control products contain a neutralizer, pH indicator and a super absorbent polymer to safely clean up aggressive chemical spills. Its unique formula reacts with the spilled chemical, converting the fluid into a gelled mass for safe, easy cleanup. A color change will appear letting you know that neutralization is taking place. Neutralizers are available in pillows, socks, pads and granular form.

Acid Neutralizing Spill Kit

All absorbents in this specially designed kit both neutralize and soak up acidic spills; cleanups are more complete and safer. Use socks to confine spill before it can spread; use pads, pillows and granular neutralizer to soak up spill. Not for use on hydrofluoric acids.

Kit Contents

- 10 Acid Encapsulating/Neutralizing Mats (12" x 12")
- 2 Acid Neutralizing Socks (2" x 4')
- 2 Acid Neutralizing Pillows (12" x 12")
- 2 Shaker Bottles Granular Neutralizer (2.5 lb.)
- 1 Splash Goggles
- 1 Pair Nitrile Gloves
- 1 Apron
- 2 Temporary Disposal Bags w/Ties

Model #	Mfg #	Description	Sorbent Capacity	Packaging	Weight
KIT1050	KITA1001	Acid Neutralizing Spill Kit	absorbs up to 4 gallons	1	20 lbs.

Liquid Neutralizers

Liquid neutralizers generate less gas and heat during neutralization than dry formulas. Use liquid formula by spraying on vertical surfaces or pouring into tight corners and hard-to-reach areas. Use liquid HF Acid Eater for hydrofluoric acids. The standard liquid acid neutralizers cannot be used on hydrofluoric acid.

HgX[®] Mercury Decontaminant Powder

For the reduction of toxic mercury vapor, HgX[®] is an inexpensive, water-soluble, nonhazardous, metallic-mercury/sulfide-converting powder with a chelating compound and dispersing agent. It reacts rapidly, forming a film over the finely divided, nearly invisible beads of mercury and reacting to produce a nonvaporizing sulfide. Further, HgX[®] keeps on working. Particles of HgX[®] left on cleaned surfaces are reactivated during subsequent cleaning.

HgX[®] is not harmful. None of its components are classified as toxic. It leaves no odor. And no allergic reactions ever have been reported, even after continuous use under various conditions.

HgX[®] is stable. It is supplied in polyethylene drums and can be stored safely up to one year without any loss of activity.

HgX[®] Mercury Decontaminant Powder

Model #	Mfg #	Description	Packaging

OILM7035	NEUT3601	Mercury Decontaminant Powder	20 lb. drum
OILM7038	NEUT3602	Mercury Decontaminant Powder	1.5 lb. tub

Bioremediation is the process of using microorganisms to digest harmful contaminants and turn them into nontoxic compounds. Nature will heal itself, but it often takes a great amount of time. Using microbes helps speed up this process by concentrating the number of helpful microorganisms within a given area. Microscopic organisms digest hydrocarbons and transform them into harmless carbon dioxide and water. Bioremediation is a safe, natural process that produces no harmful byproducts. Since it can be done on site, it is often more cost-effective than having soil or water hauled away for burning or other reclamation. It is also safer for workers, because no harmful chemicals are used in the process.

Remediate™

Remediate™ is an innovative concept in the remediation of soil saturated with hydrocarbon contaminants. It is designed to allow industry to clean up and restore soil to its pre-contaminated condition. Remediate™ is a natural absorbent that has been specially treated with hydrocarbon-digesting microbes. These microbes have the ability to turn most hydrocarbons into carbon dioxide (CO²) and water. When used according to the directions, Remediate™ safely and effectively solves your contamination problems with very little labor and equipment expense, thereby making this product an essential part of your pollution control efforts.

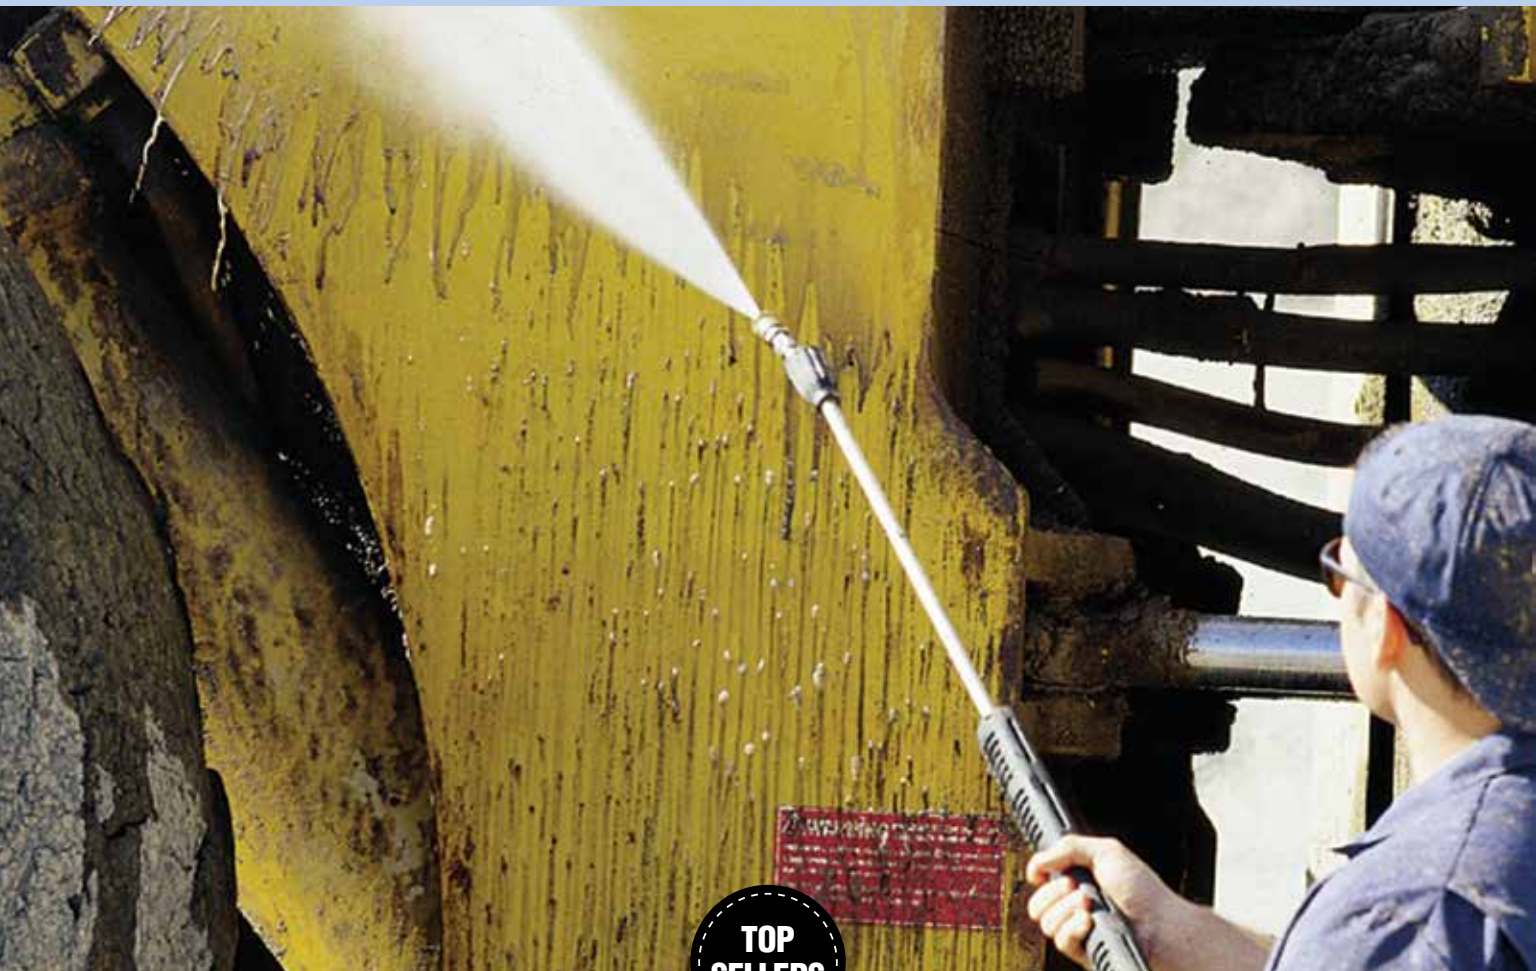

Remediate™

CLEANERS/DEGREASERS

The title says it all—these products are used to clean and maintain your workplace, whether it be for industrial or commercial use.

We only offer products that won't harm you when in use. Our popular line of Simple Green® cleaners and degreasers helps keep your shop or plant clean at all times, and the best part about it—they won't harm the person using them, unlike some of the other hazardous cleaners that are on the market today.

Simple Green®
Page 57

Simple Green® Spray Bottle
Page 57

Original

Simple Green® is one of the most versatile all-purpose cleaners you can buy! It's nontoxic and biodegradable, without harmful bleach or ammonia. Because it is a concentrate, you can use Simple Green® full-strength or add water to clean just about anything. It replaces most cleaners, detergents, degreasers and solvents you're using now!

Simple Green®

Model #	Mfg #	Description	Packaging
SGR354	CDSG1000	24 oz. Bottle w/Sprayer	12/case
SGR353	CDSG1001	1-Gallon Bottle	6/case

Oil Grabber® Oil Stain Remover

Oil Grabber® Oil Stain Remover absorbs and lifts embedded oil stains without scrubbing!

Outperforms conventional liquid degreasers. Absorbs and lifts embedded oil stains as it dries from liquid to powder. The world's best oil stain remover. The only product proven effective on concrete. Also works on asphalt, composite/wood decks, patios, pavers and more!

Removes stains from: antifreeze, brake fluid, cooking oils, diesel fluid, grease, hydraulic fluid, power steering fluid, tar, transmission fluid, tree sap and wax.

Use on: Asphalt (blacktop), concrete, composite decks, driveways, garage floors, masonry, patios, walkways, wood and more. A 32 oz. bottle treats 18 sq. ft.

No other single product removes really tough soils as quickly and effectively from so many different surfaces. Cuts grease, grime, oil, tar and wax fast! Removes dried latex paint — excellent tile and grout cleaner as well.

Oil Grabber®

KRUD1004	CDKK1004	32 oz. Bottle	6/case

STORM WATER MANAGEMENT

Clean water is essential for life on earth.

There are laws in the U.S. that prevent the discharge of pollutants into storm drains and/or directly into bodies of water. We offer a variety of products that are used in industrial, commercial and residential environments. These products protect our waters from being contaminated not only with oils and chemicals, but with loose sediments that are found on construction sites as well. You can never be over-prepared for situations like this. Check out the new Flood Control section as well.

Lots of people have experienced flooding at one point in time—be prepared!

Spill Dam Connectors

Model #	Mfg #	Description
OIL799	SWMSD1002	Use connectors to connect original spill dams for more coverage

Tall Spill Dams

The taller version of the spill dam is used to contain and divert larger volumes of liquid. Flexible polyurethane construction is nonabsorbent and chemical-resistant. Easily cleans up with soap and water for repeated use. Built-in connectors allow you to attach them end to end.

Tall Spill Dams

Part #	Model #	Description	Size	Weight
OILM7378	SWM1211	Tall Spill Dam	5' x 4" x 4.5"	16 lbs.

Drain Guard

Storm water drain guard is designed for use in industrial facilities, construction sites and parking lots. Contains an oil-absorbent pillow that removes oils and greases from water flow as it passes through the drain guard. Nonwoven fabric removes dirt, sand and other sediments from storm water. Absorbs up to .87 gallons of oil and holds up to 40 pounds of sediment.

Model #	Mfg #	Description	Weight
OILM7322	SWM1101	Drain Guard, Oil & Sediment Model, 48" x 36" x 18"	2 lbs.

Helps comply with NPDES, 40 CFR 122.26 (1999)

Drain Guard, Curb-Insert Style

For use with combination catch basins with a street grate and curb opening. Heavy-duty tension rod secures drain guard inside curb inlet — stopping sediment and other contaminants from entering curb portion of storm drain. Fits grate sizes up to 40" x 40" and curb inlets up to 60" wide.

Model #	Mfg #	Description	Weight
OILM7326	SWM1102	Drain Guard, Curb-Insert Style, Oil & Sediment Model, Inlets 24"-42"	4 lbs.
OILM7330	SWM1103	Drain Guard, Curb-Insert Style, Oil & Sediment Model, Inlets 42"-60"	5 lbs.

Helps comply with NPDES, 40 CFR 122.26 (1999)

Dewatering Bags

Use to remove both oils and sediment from a body of water. Attach to the end of a hose and pump water through it. The highly durable geotextile will eliminate hydrocarbons and sediment, while allowing the clean water to filter through. Choose from four different sizes.

Model #	Mfg #	Description	Capacity (cu. ft.)
OILM7396	SWM1203	3' x 4'	6
OILM7397	SWM1204	6' x 6'	18
OILM7398	SWM1205	10' x 15'	150
OILM7399	SWM1206	15' x 15'	225

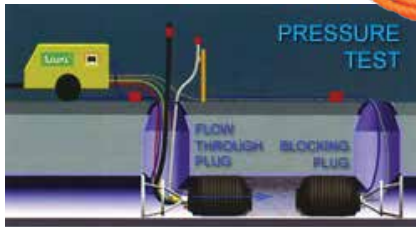

Inflatable Pipe Plugs

Multi-size pipe plugs reinforced with Kevlar® have a wide application range. Plugs are made from a high-quality Neoprene rubber that will stand up to hydrocarbons. Each plug covers several pipe sizes. Multi-size ranges overlap for more user selectivity. For pipes from 8" diameter to 24" diameter. These sizes work on most municipal storm drains and sewers. Plugs are flexible and bend easily around tight corners or when installing through manholes.

Plug accessories are sold separately — please call our office for details.

H2O Dam

H2O Dams & Flood Barriers

These compact “sandless” sand bags absorb, contain and divert water

Flood Barrier

H2O Dam

“Sandless” sand bags are compact and lightweight for storing, but will grow to 32 lbs. in times of need. Just add water and watch them grow. Contains super-absorbing polymers that will swell and gel with water. Contents are nontoxic, nonhazardous and biodegradable. Stagger multiple bags to build a retaining wall.

H2O Dam*

Model #	Mfg #	Description	Size	Packaging
OILM7368	SWM1210	H2O Dam, absorbs up to 4 gallons	12"W x 24"L x 3.5" H	20/case

Flood Barriers*

Model #	Mfg #	Description	Size	Packaging
OILM7387	SWM1207	Flood Barrier, absorbs up to 4 gallons	3.5" x 5'	26/case
OILM7388	SWM1208	Flood Barrier, absorbs up to 8 gallons	3.5" x 10'	12/case
OILM7389	SWM1209	Flood Barrier, absorbs up to 13.5 gallons	3.5" x 17'	8/case

*Not for use with salt water

Flood Barriers

Divert problem water away from your home or business. Self-activating flood barriers—simply expose them to fresh water. They absorb water and grow to full size at 3.5" high in 5 minutes. Swelled barriers contain and divert flood water. Leave in place for ongoing protection. Lasts for up to 8 months of continuous use. Safe, nonhazardous and nontoxic, environmentally friendly and decomposes over time.

- > Ready to use, activates and grows when wet
- > Compact and lightweight
- > No sand or labor needed
- > Reusable and lasts for months, leave in place for ongoing protection
- > Reactivates when wet and evaporates when dry
- > Safe, nonhazardous and nontoxic, environmentally friendly
- > Stagger multiple H2O Dams to build a retaining wall
- > Compared to heavy traditional sand bags, you can carry several of these at a time, making your job much easier

Grab & Go Flood Protection

This kit is designed for quick and easy deployment when timing means everything. The compact container takes up minimal space and is ideal for rapid emergency deployment. Store in closets, cabinets, vehicles and more. The bucket can be used to preactivate your H2O Dams/Flood Barriers—just add water to the bucket and go!

Model #	Mfg #	Description	Absorbs
KIT8001	SWM1210	Grab & Go Flood Control Kit	up to 60 gallons

Kit Contents

- 5 Barriers, 5' x 3.5"
- 10 H2O Dams, 24" x 12" x 3.5"

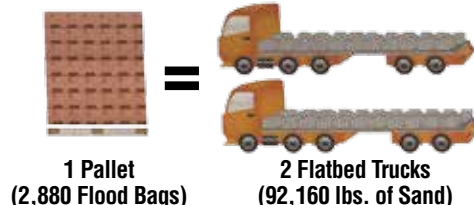

HOW MUCH DO SAND BAGS COST YOU?

1 Pallet of H2O Dams:

- > 2,880 Dams
- > Activate on site with flood water

Sand bags:

- > 2,880 empty sand bags
- > 92,160 lbs. of sand, transport sand to fill site
- > labor to fill bags
- > transport filled bags to deployment site

PERSONAL PROTECTION

Spills can not only be a very messy job when it comes to cleaning them up. Depending on the liquid, they can be life-threatening as well.

Timing is everything when responding to spills, and without the proper PPE, the time to respond could cost you thousands, if not millions of dollars. Make sure you are prepared for your worst-case scenario when it comes to your PPE. Protecting your health is first and foremost. Remember the saying: "SAFETY FIRST"

Oilmen Gloves

Page 66

Nuke Boots

Nuke Boots are heavyweight latex shoe covers. These highly stretchable latex rubber overboots go on easily over shoes. Hazmat boots are slip-on shoe covers for controlling the spread of hazardous materials. Protect your boots and yourself against worksite debris. Economical enough for one-time use, but durable enough for repeat wear. Heavily textured soles give reliable traction on wet, slippery surfaces.

Tyvek® Suits

With Tyvek®, you don't have to compromise. That's because Tyvek® delivers the best balance of protection, durability and comfort. Made using a proprietary manufacturing process, Tyvek® features an inherent barrier. So, unlike other protective apparel fabrics which have either a film or coating that can be easily scratched or worn away, Tyvek® provides a barrier through the entire fabric.

Polycoated Tychem® Suits

Tychem® QC — a DuPont™ Tyvek® protective fabric coated with 1.25 mils of polyethylene. It is reliable protection for minor chemical spills and where there is potential for mist or light splash. Bright yellow in color.

MicroMAX® Suits

The MicroMAX® pattern design features a tailored pattern cut, inset sleeves, elastic back, and a double-gusseted crotch that allows unparalleled freedom of movement. What's the difference between this suit and competitive products? Competitive, non-gusseted coveralls have a crotch dropped lower to allow for reaching without ripping out, and yoke-style sleeves put a seam in the chest which is vulnerable to chemical penetration. MicroMAX® 3P Super B with the double-gusseted crotch and inset sleeves eliminates these flaws—the result being a garment that is designed to fit and is not just a larger bag. Perfect for general duty work environments, MicroMAX® utilizes three barrier layers to provide an excellent level of protection. Dirt, grease, grime and light liquid splashes and spills are no problem for MicroMAX®. It's an excellent, low-cost alternative that provides you with high-quality protection. This is a great alternative to Tyvek® suits.

ChemMax 1® Suits

Offering quality along with durability, this cost-effective, entry level product will please distributors, safety engineers, and plant purchasing managers. Whether you are in manufacturing, environmental cleanup, or chemical handling, you can trust the ChemMax® family of products to protect your workers from harm. ChemMax® is constructed with a unique polyethylene barrier film and a continuous filament polypropylene nonwoven. ChemMax 1® garments bar many harmful contaminants from penetrating to inner clothing. This is a great alternative to Tychem® suits.

AVAILABLE STYLES

- Coverall w/Collar
- Coverall w/Elastic Wrist & Ankles
- Coverall w/Attached Hood
- Coverall w/Attached Hood & Elastic Wrists & Ankles
- Coverall w/Attached Hood & Boots & Elastic Wrists (Bunny Suit)

Available in sizes

SpiderGrip® Work

Job-fitted for applications where dexterity, flexibility and comfort are desired! SpiderGrip® gloves will make slips a thing of the past! SpiderGrip® crinkle dip latex gloves have a textured palm to provide an excellent grip. The palm of the glove is liquid-repellent, while the back provides excellent breathability to keep hands cool on the job.

Features: seamless design, puncture-resistant, ergonomic fit, long-wearing
 Applications: light to medium fabrication, parts handling, general warehousing, maintenance and general purpose handling where light liquids or oils are present

Spill Nest

An affordable and convenient temporary storage for drums or equipment

The flexible-sidewall Spill Nest delivers easy-to-use, affordable, temporary spill containment for drums, machine parts, tanks, generators, small equipment and other job site needs. It also can be used as a wash-down pad or pumping station. A great alternative to hard plastic pallets. Features foam sidewalls that easily spring back into place after pressure is applied. Units are constructed of high-quality PVC fabric. Units are drive-in and drive-out with hand truck or forklift—no need for a ramp. Made in the USA.

Black HDPE gratings are available and sold separately. Larger sizes are available but are not kept in stock. Some capacities may not meet EPA guidelines.

Model #	Mfg #	Description	Weight	Contains
BERM1060	BERM1060	2-Drum Spill Nest, 32.25" x 57.75"	4 lbs.	15 gallons
BERM1061	BERM1061	4-Drum Square Spill Nest, 57.75" x 57.75"	8 lbs.	30 gallons

SECONDARY CONTAINMENT

Spill Containment Trays

Spill trays are made of 100% post-industrial recycled polyethylene. They are ideal for catching drips and leaks from small equipment, vehicle batteries, or pouring and filling activities. Lightweight and durable, these HDPE spill trays have excellent chemical resistance.

Model #	Mfg #	Description	Weight	Contains
OIL745	CON5625	Spill Tray, 46" x 16" x 5.5"	4 lbs.	12 gallons
OIL746	CON5623	Spill Tray, 38" x 26" x 5.5"	5 lbs.	20 gallons
OIL747	CON5624	Spill Tray, 47" x 33" x 5.5"	8 lbs.	29 gallons

Containment Utility Tray

This HDPE tray is an affordable way to contain small spills up to 5 gallons. Ideal for countertop use or as a floor tray under machinery.

Model #	Mfg #	Description	Weight
CON0142	CON5629	Containment Utility Tray, 18" x 36" x 2"	6 lbs.

Poly Drum Funnel with Hinged Lid

Durable polyethylene drum funnel resists rust, corrosion and most chemicals. Lid is attached by hinge to allow for easy use.

Model #	Mfg #	Description	Weight	Contains
CON0209	CON5101	Poly Drum Funnel w/Attached Lid, 26.5" diameter	17 lbs.	5 gallons

Steel Drum Funnel

10.75" diameter, 10" height, fits into 2" Drum Bung, 6" Brass Flame Arrestor

- > Easy pouring during liquid waste collection
- > Wide-mouth opening with hinged, stay-open lid
- > Built-in flame arrestor on most models to prevent fire intrusion
- > Self-closing in case of fire

These funnels offer superior safety features that make them ideal for use with solvent, thinner, oil and paint wastes. Heavy 18-gauge galvanized steel with electrostatically applied epoxy powder coat paint provides durability and chemical resistance. Larger funnels accept a lock to prevent unauthorized access. Funnels intended for use with flammables are fitted with a brass flame arrestor that absorbs and dissipates heat, preventing any external ignition source (like sparks from power tools, static electricity or cigarettes) from reaching the drum's flammable contents.

Model #	Mfg #	Description	Weight
CON0173	CON5103	Large Steel Funnel with Self-closing Cover	10 lbs.

BERM FABRIC SELECTION

RATING	BERM FABRIC	DURABILITY
★★★★★	XR5	Extremely durable, very compatible with most chemicals, 32 mil average thickness. Not susceptible to UV damage.
★★★★	XR3*	Very durable, wide chemical compatibility, 30 mil average thickness. Not susceptible to UV damage.
★★★	40 oz. PVC	Reinforced PVC, very durable fabric, compatible with most chemicals, 42 mil average thickness.
★★	22 oz. PVC	Reinforced PVC, durable fabric, very compatible with most chemicals, 24 mil average thickness.
★	18.5 oz. PVC	Reinforced PVC, durable fabric, very compatible with most chemicals, 20 mil average thickness.

*XR3 Fabric is our most popular. The default berm fabric for all of the part numbers below is XR3.

Drive In/Drive Out Containment Berms

Entry and exit walls automatically spring back to their vertical position. No need to manually raise or lower the end walls. Both of the long sidewalls are held upright by PVC side wall assemblies—simply swivel the feet to lower and transport the berm.

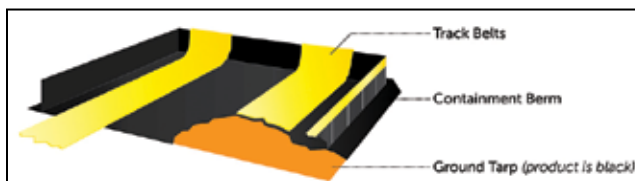

Model #	Mfg #	Dimensions	Weight	Contains
BERM1000	BERM1000	12' x 60' x 1'	309 lbs.	5,385 gallons
BERM1001	BERM1001	15' x 50' x 1'	326 lbs.	5,610 gallons
BERM1002	BERM1002	15' x 66' x 1'	405 lbs.	7,405 gallons

Rapid-Rise Containment Berms

Sidewalls stay lowered and out of the way until they are needed. No sidewall set-up or take-down required. In the case of a spill, the foam ring around the top of the side walls will rise with the level of the liquid.

Model #	Mfg #	Dimensions	Weight	Contains
BERM1010	BERM1010	10' x 10' x 1'	63 lbs.	748 gallons
BERM1011	BERM1011	12' x 26' x 1'	149 lbs.	2,333 gallons
BERM1012	BERM1012	15' x 50' x 1'	278 lbs.	5,610 gallons
BERM1013	BERM1013	15' x 66' x 1'	357 lbs.	7,405 gallons

Take care of your berms and prolong their life by using Ground Tarps and Track Guards. Call our office for details.

BERMS

Compact Containment Berms

Compact design folds into tight package — minimal space required to store on board trucks or hazmat response vehicles. Compact, lightweight, portable design, no inflation required. Just insert sidewall struts into their pockets and berms are ready to go.

Model #	Mfg #	Dimensions	Weight	Contains
BERM1020	BERM1020	10' x 10' x 1'	72 lbs.	748 gallons
BERM1021	BERM1021	12' x 26' x 1'	335 lbs.	5,385 gallons
BERM1022	BERM1022	15' x 50' x 1'	317 lbs.	5,610 gallons
BERM1023	BERM1023	15' x 66' x 1'	404 lbs.	7,405 gallons

Economy Containment Berms

Economical design offers cost savings and secure containment. L-shaped aluminum brackets provide sturdy sidewall support. Brackets are easily inserted into sleeves spaced around the perimeter of the berm. These are available in both XR3 or 18.5 oz. PVC.

Model #	Mfg #	Materials Used	Dimensions	Weight	Contains
BERM1030	BERM1030	22 oz. PVC	4' x 6' x 1'	21 lbs.	179 gallons

BYOB — Build Your Own Berm

Build a barrier around machinery or equipment that is permanently mounted or cannot easily be moved, or wherever a berm wall is needed. Economical containment for leaks and spills around machinery and equipment — no need to build expensive cement or angle iron curbs. This component system provides flexibility to create a semipermanent, high-visibility custom barrier. Its durable, vinyl covering resists oils, coolants and most chemicals. Cut to length and secure to floor with included sealant, then seal seams with the vinyl adhesive. High-visibility yellow color draws attention to barrier for increased safety. Easy removal requires only a flat-bladed shovel.

Model #	Mfg #	Description	Weight
CON3106	BERMBYOB	BYOB — Build Your Own Berm Component System	22 lbs.

Individual parts are sold separately. Please call for details.

BYOB Component System includes:

- 2 – 25' Berm Walls
- 4 – Berm Corners

Safety Storage Cabinets

Storage cabinets are available from 4 gallons to 120 gallons, with many sizes in between to meet your needs. Whether you're storing flammables, paints, inks, acids, corrosives or pesticides, we'll have a cabinet that will best suit your needs. Cabinets are available in three door styles: 2-door manual close, sliding door self-closing, and 2-door self-closing. If you don't see the cabinet you're looking for, please call customer service for additional specifications.

30-gallon flammable

40-gallon paint and ink

30-gallon acid

45-gallon flammable

60-gallon flammable

60-gallon paint and ink

44-gallon acid

Safety Storage Cabinets

Model #	Mfg #	Capacity	Description	Weight	Color & Storage
PI-32	CAB2000	40 gallon	43" x 18" x 44", Manual Close, 3 Shelves	281 lbs.	Red—Paint & Ink
PI-47	CAB2001	60 gallon	43" x 18" x 65", Manual Close, 5 Shelves	389 lbs.	Red—Paint & Ink
6010	CAB2003	60 gallon	31.25" x 31.25" x 65", Self-Close, 2 Shelves	364 lbs.	Yellow—Flammables
1962	CAB1003	60 gallon	31.25" x 31.25" x 65", Manual Close, 2 Shelves	364 lbs.	Yellow—Flammables
1947	CAB1002	45 gallon	43" x 18" x 65", Manual Close, 2 Shelves	353 lbs.	Yellow—Flammables
4510	CAB2002	45 gallon	43" x 18" x 65", Self-Close, 2 Shelves	353 lbs.	Yellow—Flammables
1932	CAB1000	30 gallon	43" x 18" x 44", Manual Close, 1 Shelf	257 lbs.	Yellow—Flammables
1904	CAB1001	4 gallon	17.5" x 18" x 22.5", Manual Close, 1 Shelf	70 lbs.	Yellow—Flammables
CRA-32	CAB3001	30 gallon	43" x 18" x 44", Steel, Manual Close, 1 Shelf	253 lbs.	Blue—Acids*
CRA-P44	CAB3000	44 gallon	35" x 22" x 65", Poly, Manual Close, 4-Door	130 lbs.	Blue—Acids

*Steel cabinets not recommended for use with Sulfuric, Nitric or Hydrochloric Acid

Grounding Wires

Model #	Mfg #	Description
CON0020	CAB0001	Bonding Wires (3'), helps meet UFC Div8, Sec. 79803

Oil Waste Cans

Oily waste cans offer fire-safe, temporary storage of solvent, waste rags, shavings and other materials subject to spontaneous combustion. Available in either galvanized steel or polyethylene. Cans feature self-closing lid with foot lever. OSHA-compliant cans are essential whenever solvent-soaked cloths and wiping rags are used. Available in many different sizes. Compliance: OSHA 29CFR 1910.108 and OSHA 29 CFR 1910.106

Oil Waste Cans

Model #	Mfg #	Description	Contains	Weight
933-FL	CON5205	Poly, 16.5" x 13.5" x 16"	6 gallons	9 lbs.
935-FL	CON5200	Poly, 22" x 18" x 18"	10 gallons	14 lbs.
937-FL	CON5202	Poly, 22" x 18" x 21"	14 gallons	16 lbs.

Model #	Mfg #	Description	Contains	Weight
CON0411	CON5206	Steel, 11 7/8" x 15 7/8"	6 gallons	10 lbs.
CON0410	CON5201	Steel, 13 15/16" x 18 1/4"	10 gallons	13 lbs.
CON0412	CON5203	Steel, 16 1/16" x 20 1/4"	14 gallons	16 lbs.
CON0413	CON5204	Steel, 18 3/8" x 23 7/16"	21 gallons	22 lbs.

Corrugated Waste Container

Heavy-duty box will hold the equivalent of four 55-gallon drums. This will save you money in transportation and disposal. Corrugated waste containers are rated for packing groups I, II and III. They come complete with a corrugated box, 8 mil liner, pallet and nail kit.

Model #	Mfg #	Description	Packaging
OIL762	CON080	36" x 36" x 36" Corrugated Box, 8 Mil Liner, Pallet & Nail Kit	35/pallet

Poly-Lined Corrugated Waste Container

These flexible wall bulk bag waste containers are enclosed with layers of polypropylene. UN-approved for Packing Groups I, II & III at 3,000 lbs. X-rated flex pack

includes 6 mil inner polyethylene liner. Has four 10" lifting loops and a 36" x 36" x 36" inner dimension.

Model #	Mfg #	Description	Packaging
OIL776	CON081	36" x 36" x 36", w/4 Lifting Loops	20/pallet

55-Gallon Steel Drums (reconditioned)

Use 55-gallon open top drums to store used sorbents and for use in transportation. Closed head drums are used for storing free-flowing liquids. Drums are UN-rated UN1A2/Y1.2/100.

Model #	Part #	Description	Packaging
OIL760	CON5053	55-Gallon Steel Drum, Open Head, DOT Approved	1
OIL761	CON5052	55-Gallon Steel Drum, Closed Head, DOT Approved	1

SPECIALTY PRODUCTS

We offer so many cool products when it comes to cleaning spills or maintaining a neat and clean workplace.

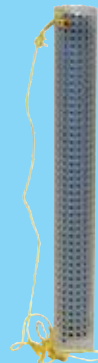

This section is our offering of products that work great in certain situations. Please take the time to scan the section—you don't want to miss some of these niche products.

Plug 'n' Dike
Page 79

H2OZorb
Page 80

Plug 'n' Dike Tank Repair Compound

Seals off fuels, solvents and many other chemicals. Seals immediately and sticks to dirty, crumpled surfaces, even with the fluid flowing out.

Model #	Mfg #	Description	Packaging	Weight
OILM9100	CON6100	Tank Repair Compound	1 jar	1 lb.
OILM9101*	CON6101	Tank Repair Compound	5-gallon pail	48 lbs.

*In powder form; mix and make your own 1 lb. jars.

Epoxy Putty Stick

Repair leaking pipes. Simply pinch off the amount desired, knead to a uniform gray, and press into place.

Model #	Mfg #	Description	Packaging	Weight
OILM9103	CON6102	Epoxy Putty Stick, 7" x 7/8" diameter	12/box	4 lbs.

Non-Sparking and Chemically Resistant Tools

Specially designed for spill kits and environmental and industrial cleanup applications, these tools are rugged, non-sparking and chemically resistant.

Collapsible Shovels

Model #	Mfg #	Description	Weight
OILM7314	TOOL1002	2-Piece Shovel, 10.5" x 14" x 38.5"	2 lbs.
OILM7316	TOOL1003	Economy Blade Spill Kit Shovel, 2-piece, 11" x 13" x 36"	2 lbs.

Scoops

Model #	Mfg #	Description	Weight
OILM7313	TOOL1001	Non-Sparking/Polypropylene, large scoop, 82 oz.	1 lb.
OILM7307	TOOL1000	Non-Sparking/Polypropylene, small scoop, 32 oz.	1 lb.

Rescue Tape®

**Got a leaking hose?
Wrap it up tight with silicone tape!
Just stretch, wrap & get rescued™
Seals Leaks Fast!**

- > 950 PSI tensile strength
- > Resists fuels, oil, acids, solvents, salt water, road salt, UV rays
- > Resists 500° F
- > Insulates 8,000 volts

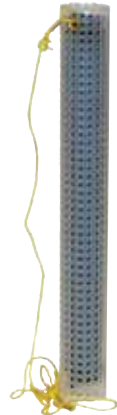

Most versatile tape on the market, even better than duct tape. Repair leaking hoses and insulated wires, or use it in place of heat shrink tubing. This is a self-fusing silicone repair product for emergencies and all-purpose repairs. By wrapping it around and onto itself, Rescue Tape® will quickly and easily create a permanent, airtight, watertight seal in just minutes or even seconds. You can repair leaks on hoses, pipes and air lines, or use it on electrical wiring and as shrink wrap.

Model #	Mfg #	Description	Color	Packaging
TPE100	TPE1000	Industrial Size, 2" wide x 36'	Black	6/case
TPE101	TPE1001	Industrial Size, 2" wide x 36'	Clear	6/case
TPE102	TPE1002	Standard Size, 1" wide x 12'	Black	36/case

TPE105	TPE1005	Retail Display Pack w/1" Rolls	Assorted	24/case

H2OZorb

Pull water from fuel tanks before it causes damage.

Maintain peak performance and prevent engine failure. H2OZorb sorbent pulls in water that collects in fuel tanks before it can cause damage. Helps preserve engine life and prevent frozen lines by removing water from fuel stores; also minimizes filter-clogging rust and algae. Ballast forces H2OZorb to bottom of tank, where unwanted water settles; highly absorbent filler pulls in water, but repels gas and diesel fuel. The tough nylon line makes deployment and retrieval easy. Choose from four sizes.

Model #	Mfg #	Description	Sorbent Capacity	Packaging
CON2007	CON6001	1" D x 9" L	3 oz. bag	1
CON2006	CON6000	1.5" D x 12" L	8 oz. bag	1
CON2008	CON6002	2" D x 12" L	12 oz. bag	1
CON2009	CON6003	3.5" D x 12" L	36 oz. bag	1

Poly Sheeting and Poly Liners

Poly Sheeting

Model #	Mfg #	Description	Packaging
OILM9500	CON6200	6 Mil Poly Sheeting, 20' x 100'	58 lbs.
OILM9502	CON6201	6 Mil Poly Sheeting, 20' x 100', Fire Retardant	58 lbs.
OILM9503	CON6203	6 Mil Poly Sheeting, 40' x 100'	116 lbs.

Poly Liners

Model #	Mfg #	Description	Packaging
OIL620	BAG1003	4 Mil, Yellow Bags, 18" x 30"	250/case
BAG13983	BAG1002	6 Mil, Yellow Bags, 36" x 48"	50/case
BAG13982	BAG1001	6 Mil, Clear Bags, 38" x 60"	50/roll

Special Order & Discontinued Products

The following items were removed from the last catalog, which means we will no longer be stocking them. Some of the items are discontinued and no longer available, and some of the items still will be available through special orders only. Special order only products also will be considered web-only products, and we will indicate this on the website as well. Please allow up to 5–10 days for delivery on all special orders. Shipping costs will all be FOB the manufacturing facilities on all special orders. We apologize for any inconvenience.

SPECIAL ORDER ITEMS

Absorbents

SW100	white oil-only sweep
OILM1080	cellulose pads, general purpose
OILM5002	cellulose rolls, general purpose
OILM1057	all-in-one matting, oil only
OILM1067	all-in-one matting, universal
OILM5998	blue RR track matting
OILM5999	blue RR track matting
OILM7369	spill bucket socks

Spill Kits

KIT1018	universal cab mount spill kit
KIT1022	oil-only cab mount spill kit

Wipers & Rags

NWP101	oil-only airway, poly 1/4 fold
WIP6010	sweatshirt rags in a dispenser box, 10 lbs.

Granulars/Neutralizers/Bioremediation

OIL056	Peat Moss
OIL059	Gator-sorb
OIL930	Battery Acid Eater
OILM9030	BioRem2000 Surface Cleaner, 1 gal
OILM9031	BioRem2000 Surface Cleaner, 5 gal
OILM9032	BioRem2000 Surface Cleaner, 55 gal
OILM9025	Oil Vanish stain remover

Cleaners/Degreasers

KK32/12	Krud Kutter cleaner/degreaser, 32 oz.
KK01/6	Krud Kutter cleaner/degreaser, 1 gal
KK05	Krud Kutter cleaner/degreaser, 5 gal
KK55	Krud Kutter cleaner/degreaser, 55 gal

Storm Water Management

OILM7327	gutter guard
----------	--------------

Personal Protection

PCL0587	slush boots, 11

Warranty and Disclaimer: There are no express warranties which extend beyond the description on the face hereof. Seller disclaims any implied warranties of merchantability or of fitness for any particular purpose. Since seller cannot control the use of its products after their resale, seller will not be responsible for any consequential or indirect damages. Rather, seller will, at its option, either replace the products sold or refund the purchase price. No warranties will apply if the products are in any way altered or modified after delivery by seller. Sorbent capacities vary depending on the types of fluids being absorbed.

Handling, Storage, and Disposal: Handling, storage, and disposal of products must be carried out in compliance with all local, state, and federal regulations. Various sorbed fluids may be toxic or hazardous in nature and should be disposed of in the approved manner.

Warning: Flammable and other hazardous liquids when contaminated in any sorbent material continue to be unsafe and are subject to spontaneous ignition. Appropriate respiratory devices and protective clothing should be worn. Exercise extreme care when handling, storing, and disposing of absorbent materials containing such liquids to avoid personal injury and environmental pollution.
